

We Handle Billing And Payments So You Can Take Care Of What Matters Most

Built For Your Customers

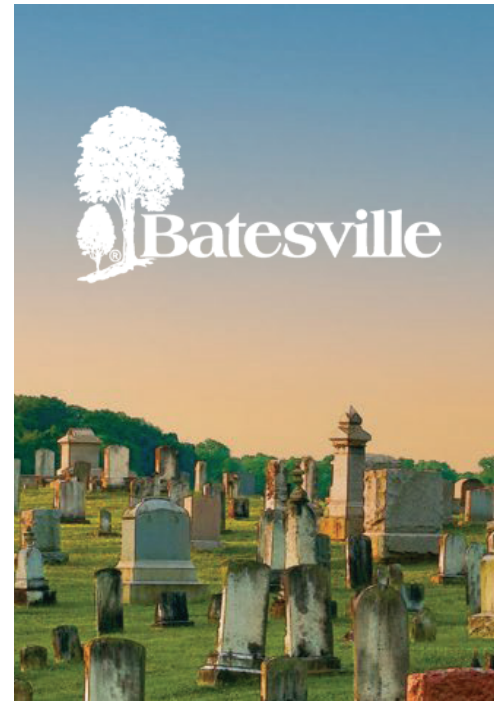

Easy. Fast. Secure. Three simple words that define what customers expect when making payments. From a custom-branded payment site to an effortless mobile experience, we provide the tools you need to exceed your customers' expectations.

- Automated bill presentment
- Multiple payment channels
- Multiple payment methods
- Customer portal (web & mobile)
- Contact center for live agent assistance
- Flexible auto-pay to fit your business rules
- Omnichannel outbound notifications
- PCI Level 1 compliance

Designed For Batesville HMIS

Integrated. Uncomplicated. Secure. These three essential words describe what billers need in their billing and payment platform. We built our platform to provide the ultimate ease of use and value for funeral service providers like you.

- Payment acceptance from all sources
- Daily deposit reconciliation
- Integration with your business software
- True Software as a Service (SaaS) platform
- PCI compliance descopeing
- Contact center for your customers
- Dedicated Account Manager for training and implementation

Upgrade Your Back Office With PSN & Batesville

Our core value to funeral service providers is how we transform your back office. A consolidated payments and reporting view from all sources saves you time and resources. Smooth integration with Batesville HMIS and sources of data eliminates headaches. Most importantly, we've designed our implementation process to be easy for you and your staff.
